

License & Accreditations

State Authorization License

The PCUPR Accreditation Office is the entity (liaison) of the University, responsible for updating and channeling, through the existing platforms, all the documentation required by the licensing and accrediting agencies, keeping the communication channels open between the agencies and the institution.

The Board of Postsecondary Institutions (JIPS for its acronym in Spanish) under the Office of Registration and Licensing of Educational Institutions (ORLIE for its acronym in Spanish) of the Department of State, is the body in charge of administering public policy regarding the licensing criteria of postsecondary education in Puerto Rico, within the regulatory framework established by the Reorganization Plan No. 6-2018 and Law 212-2018 (Law on Registration and Licensing of Educational Institutions). The JIPs has the power to issue licenses to all post-secondary educational institutions in Puerto Rico.

On May 23, 2021, the new JIPS Regulations (#9272) was approved by Certification Number 2021-053 and repeals Regulation No. 8265 and No. 8562.

Every educational institution has the responsibility of maintaining quality control of teaching-learning. It is through continuous reassessment that quality control is maintained. The duration of the accreditation license granted by the MSCHE to educational institutions, according to the new established accreditation cycle (2017), lasts eight (8) years. However, annually it has to file reports of the academic achievement of the students and the financial health indicators of the institution (Annual Institutional Update (AIUs). After four (4) years, MSCHE analyzes how the performance has been through the data collection (Midpoint Peer Review, Self-Study Evaluation).
